

# mediCAD opens new office in Hamburg, Germany

March 31, 2022

The news office is located on Schellerdamm 16 in Hamburg. Its building is a former grain warehouse built in the 1930s and used as an office building after its renovation in 2004.

mediCAD Hectec GmbH, one of the market leaders for planning and process optimization software in orthopedic operations in the German-speaking region, has opened a new office in Hamburg, Germany, in January.

The opening will help strengthen the company's existing relationships in Northern Germany and build long-term cooperation - such as the Helios Endo Clinic, Helios Maria Hilf, the Catholic Marien Hospital, the BG Clinic Hamburg, Wilhelmsburg Hospital Groß-Sand, Reinbek St. Adolf-Stift Hospital, Dr. Guth and the Albertine Hospital as well as other clinics in the surrounding federal states.
